Aaron, the center touch screen has nothing to do with driving the car. You can still drive even if it needs to be rebooted.

Good luck in court on Tuesday for violating that restraining order.

PlainSite @PlainSite

Hey @Tesla and @ElonMusk. You have a legal and ethical obligation to fix this before someone else gets killed in an avoidable accident. This mirrors complaints on the \$TSLA forum about freezing center consoles. [twitter.com/vikkasahaj/sta...](#)

Not Tesla, some other person named Diego MasMarques. I don't know what the story is here, don't want to take sides or say who's right or wrong, but there are a lot of stories about Aaron Greenspan doing some pretty nasty stuff. He thinks he invented Facebook and sued the producer

Honorable Judge Ryan,

The purpose of this letter is to communicate to Your Honor the incessant harassment, stalking, shaming, defaming and cyberbullying that myself and my immediate family have been enduring and receiving on a continuous and daily basis from the defendant Aaron Jacob Greenspan.

I received a Temporary Restraining Order on July 3, 2018 and since this date the continuous harassment and stalking by Aaron Jacob Greenspan and he has been consistently escalating his harassment and stalking tactics towards myself and my immediate family, Aaron Jacob Greenspan is relentless in his abusive behaviors, as he uses his computer to go on a harassment and stalking rampage towards myself and my family.

Attached with this letter you will find the abusive and harassing Tweets that Aaron Jacob Greenspan initiated at approximately 5pm on October 9, 2018 where he uploaded my home address on one of his Twitter accounts "plainsite@plainiste" and also uploaded my personal information on another one of his Twitter accounts "aarongreenspan@aarongreenspan". It should be noted that Aaron Jacob Greenspan uploaded my home address and other personal information on myself and my wife, such as her place of employment on the very same day that Aaron Jacob Greenspan was served the Restraining Order on October 9, 2018.

Aaron Jacob Greenspan even made an online comment that the Restraining Order was illegally served to him, by the Santa Clara Superior Court.

Every day since October 9, 2018 Aaron Jacob Greenspan has been uploading and posting my private information all over the search engines, using various methods, such as Twitter, gripe sites that apparently he has recently created since October, 2018. Aaron Jacob Greenspan still

You might want to look into who MasMarques is before you align yourself with him.

If you read the tweet you replied to, you'll notice I said I'm not aligning myself with anyone. Aaron definitely seems like a dick though.

Ah, so you're just needling someone over pending legal issues in a nuisance suit by a convicted murderer (irc all the details) who seems to think his conviction record should be a secret? Cool. Hope your Tesla research is this in-depth.

Steve Jobs @tesla_truth · 3h

I haven't researched many details about all the complaints against Aaron. I was mostly just reading about how he sued Mark Zuckerberg for stealing Facebook from him, and how he sued the makers of the Social Network for not putting him in the movie 😂 Not endorsing his enemies

There are many countries where any personal data is protected. Convictions and all is included. In my country, we don't have a map of convicted pedophiles, etc. I seriously wouldn't know if my new neighbor is an ex-con. It's ok. I appreciate the protection of ANY private data.

To conclude, is anyone surprised Aaron Greenspan is a complete fraud? Every [Stsiao](#) I have looked into has comitted serious crimes.

Aaron, know you have anger issues and like to "do something" when you're mad but retaliating against me for reporting your fraud will make it worse

Oh, and here's a bonus fraud: He see you a website with fake ads and clicked them himself to steal money from advertisers.

When Google found out and shut him down he sued them (he sues everyone)

Google showed the evidence and won.

Periodic reminder that Aaron Greenspan, who claims he invented Facebook (he didn't), is running a fake charity that Tesla short sellers use to illegally pool funds for propaganda efforts.

Please report his fake charity to the IRS. he is committing tax fraud

Have you ever heard of a charity that retaliates against people when their owner and sole employee loses money on his short position? Just for saying something...

I don't have to make up any bullshit conspiracy theories about him. The facts of his life are so embarrassing it says it all

Notice of Intent to Sue and Evidence Preservation Notice

To: Elon Musk, Jonathan Chang, Tim Hughes, Omar Gazi, Cc: James Gleeson, Erin Schneider

Gentlemen:

I write to inform Elon Musk, Excession LLC, Space Exploration Technologies Corporation, Tesla, Inc. (the "Musk Entities") and Omar Gazi and Smick Enterprises, Inc. (the "Musk Affiliates") that I intend to sue over claims including but not necessarily limited to libel, defamation, securities fraud, and violations of California Business and Professions Code § 17200. I will file suit against the aforementioned parties if they do not FIRST export and for discovery purposes preserve the contents of and THEN shut down all social media accounts that do not presently disclose that authors are now or have been, at any point, paid employees of the Musk Entities within 7 days after receiving this letter. (This includes, but is not limited to, the "@tesla_truth" Twitter account.) I will also file suit if it appears that new social media accounts are formed in place of those that are deleted.

I have reason to believe that the above parties have electronic information that may contain evidence critical to the above matter. You must preserve any information or documents that might lead to relevant evidence in this planned litigation against some or all of the aforementioned parties.

Please note that clearly defined laws and rules bar the destruction of evidence. These rules apply both to physical documents and electronic evidence and any other information created or stored in digital form that is relevant to a case.

Please also be advised that my formal discovery requests, when served and where appropriate, will necessarily include documents, records, and other computer-generated information in native, electronic format, whether structured or unstructured, and may further include, without limitation, any relevant computer, network, or system environments such as operating systems, applications, encrypted chats, middleware or scripts, all as generated and used by the Musk Entities and Musk Affiliates in the regular conduct of their everyday activities. Moreover, this includes instances where any evidence in the form of a handwritten, non-text, or other non-machine-readable original has been input into any word-processing, image capture, other electronic information retention device or application (irrespective of whether such input and storage of such input took place on any networked computer, non-networked computer, laptop, or mobile data generating device, including but not limited to PDAs, smartphones, and tablets). The Musk Entities and Musk Affiliates are hereby notified that both original paper documents as well as relevant computer-generated information derived from such original paper documents will be requested, and should be preserved.

I also write to notify the Musk Entities and Musk Affiliates that they have a duty for the length of this matter to suspend all routine document retention policies and processes to the extent they involve the destruction of evidence that is or is likely to be considered relevant in this matter, irrespective of format (paper, electronic, or other) and location.

For purposes of this notice, Electronically Stored Information (ESI) means computer-generated data or information of any kind and from any source, whose temporal existence is evidenced by its storage in, or on any electronic medium, wherever located, now existing or developed in the future, and irrespective of whether such medium is real, virtual, or otherwise.

This letter also serves to notify the Musk Entities and Musk Affiliates that they must preserve all existing sources of digital evidence that are not presently used or that may have been deleted from active systems, including but not limited to Twitter. Lastly, the Musk Entities and Musk Affiliates have a continuing obligation to preserve evidence that may come into existence after the date of this letter, or which may exist now or in the future but of which they may not have current knowledge.

Please contact me by e-mail at greenspan@post.harvard.edu or at +1 415 670 9350 to resolve this matter. (Any telephone conversation will be recorded.)

Thank you for your immediate attention.

It's not libel if it's true. You didn't invent Facebook. You've never accomplished anything in your life.

These are plain facts.

You just create negativity and feed off other people. And I can prove your crimes in court.

been meaning to thank you, Omar (Truth/Steve Jobs). Looks like this is a good idea to do that. Your funny, informative, thoughtful, & aggressive tweets against Tesla got me to purchase Tesla shares in April 2019. There were others as well. However, it all worked out. Thanks to you (& obviously Tesla) & hard work and consumers of the world (us), I was able to pay for several stem cell treatments for my son and for a few more to come. I have plenty leftover to purchase a Cybertruck for retirement. I owe you. Do not let these trolls bring you down. People whining about someone a piece of shit is hilarious. We need to win the hearts & minds of consumers with products that are better for our planet, our health & safety, and our future generations. Shooting around does not always work. Keep up the great work!

Why does Aaron Greenspan threaten his critics, and Tesla customers?

To spread false stories about Tesla in the media, while surpressing positive voices through intimidation.

The SEC must investigate and prosecute the perpetrators of this short and distort fraud.

Aaron Greenspan abuses his charity to inure private benefit to himself.

His tax exempt status should and will be revoked, and he must pay back the taxes he illegally avoided.

Aaron Greenspan is a cyberstalker who has been threatening and harassing Omar & others for years.

A common tactic used by cyber stalkers is false accusations and false victimization.

The harasser will try and make it look like they are the victim, and use that to incite hate.

Cyberstalking

From Wikipedia, the free encyclopedia

"Cyberstalker" redirects here. For the Lifetime TV film, see *Cyberstalker (film)*.

Cyberstalking is the use of the Internet or other electronic means to stalk or harass an individual, group, or organization.^[1] It may include false accusations, defamation, slander and libel. It may also include monitoring, identity theft, threats, vandalism, solicitation for sex, or gathering information that may be used to threaten, embarrass or harm.^[2]

Cyberstalking is often accompanied by real-time or offline stalking.^[2] In many jurisdictions, such as California, both are criminal offenses.^[3] Both are motivated by a desire to control, intimidate or influence a victim.^[4] A stalker may be an online stranger or a person whom the target knows. They may be anonymous and solicit involvement of other people online who do not even know the target.

Cyberstalking is a criminal offense under various state anti-stalking, slander and harassment laws. A conviction can result in a restraining order, probation, or criminal penalties against the assailant.

I think so too. and he's committing tax fraud by doing it through a charity so he will definitely have to pay the IRS back more than \$100,000

No - cybertruck reservations (or really any reservation not delivered in Q2) do not impact the income statement. This was a bad suggestion, but the other ones will make a difference.

Legal troll who extorted Mark Zuckerberg for \$250,000 and then donated it to his fraudulent charity to evade taxes.

When we have his tax exempt status revoked, he'll owe about \$100,000 in back taxes.
